2011-12 RSP Tuition Break Undergraduate Catalog

How to Use Catalog

The 2011-12 RSP Tuition Break Catalog is a comprehensive guide to the New England Board of Higher Education's Tuition Break. A regional catalog, it explains eligibility for all six New England states.

Start by reading basic information about the Tuition Break on page 2 and the Frequently Asked Questions on page 3.

To determine which majors residents of a state may study with the Tuition Break:

Go to the degree section in this catalog. The majors are organized by program category (such as Business, Engineering). Check to see which states are listed next to a major, as in following examples.

Visit www.nebhe.org/tuitionbreak, and select "Find a Program to view and download resident-state-specific brochures or to search the program database.

Examples of Undergraduate Majors:

Biomedical Engineering (bachelor's)ME, MA, NH, VT
UCONN, URI

Wind Power Technology (associate).....CT, NH, RI, VT
NMCC

● **Code(s)** = College(s) offering major with the Tuition Break. College codes are explained on page 5.

If a state college/university is not listed (even though it has the major), it means the college chooses not to offer the major with the Tuition Break.

● **States** = Residents eligible for Tuition Break.

If a state is not listed, residents of that state are not eligible, because a home-state public college or university offers the program.

New England Board of Higher Education's RSP Tuition Break for New England Residents

The New England Board of Higher Education's Tuition Break program, the New England Regional Student Program (RSP), provides a discount on tuition to New England residents when they enroll in approved degree programs at out-of-state public colleges and universities in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. New England's 80 public colleges and universities participate in the RSP Tuition Break program.

Information on approved degree programs is available at www.nebhe.org/tuitionbreak under "Find a Program."

The 2011-12 annual undergraduate catalog is a comprehensive list of the 450+ undergraduate degree programs offered through NEBHE's Tuition Break program and explains eligibility for residents of all six New England states.

Residents of a particular New England state are eligible for an approved major at one or more specific out-of-state New England public colleges or universities – when that program is not offered by any home-state public institution. Students apply for RSP status on the institution's application form; no separate application is required by NEBHE. The institution notifies applicants who are accepted for admission whether they have been granted RSP status.

The approved majors do not necessarily include every program for which residents might expect to be RSP eligible. Some programs have special requirements and/or are not available to freshman students (explained in program footnotes). Also, participating colleges and universities may decide against offering certain programs, such as those which are highly competitive.

Shared resources

The RSP enables the six New England states to expand educational opportunities for their residents, while avoiding duplication of costly academic programs. Established by NEBHE in 1957, the RSP has provided New England residents with savings on more than 230,000 annual tuition bills. The RSP has at the same time helped individual New England states avoid spending billions of dollars in capital and operating expenditures for academic programs already offered in other New England states.

The RSP Tuition Break

In academic year 2009-10, nearly 8,800 New England students were enrolled through the RSP Tuition Break and saved \$51 million on their annual tuition bills. Participating students enrolled on a full-time basis each saved an average of \$7,000 on their 2009-10 annual tuition bills.

The RSP tuition rate reflects a significant break on an institution's out-of-state tuition rate. Public colleges and universities charge out-of-state tuition to students who permanently reside in other states and in-state tuition to students who permanently reside in the state where the college or university is located. Tuition rates for all participating colleges and universities are posted on the NEBHE website.

Examples of 2010-11 tuition rates:*

College/University	In-State	Out-of-State	RSP Rate	Tuition Discount
Eastern Connecticut State University	\$4,023	\$13,020	\$6,035	\$6,985
Lyndon State College, Vt.	\$8,232	\$17,760	\$12,336	\$5,424
Nashua Community College, NH	\$4,680	\$10,680	\$7,032	\$3,648
Rhode Island College	\$5,988	\$15,880	\$8,982	\$6,898
University of Maine	\$7,590	\$21,840	\$11,430	\$10,410
University of Massachusetts Amherst	\$1,714	\$9,937	\$3,000	\$6,937
University of New Hampshire	\$10,730	\$24,700	\$18,777	\$5,923
University of Rhode Island	\$9,014	\$25,720	\$15,776	\$9,944

Note: Only the tuition portion of college costs is discounted by the RSP Tuition Break program — not fees, room and board and other expenses.

** Current tuition rates for participating RSP Tuition Break institutions are posted online at www.nebhe.org/tuitionbreak under "Data & Reports."*

Frequently Asked Questions

Is the Regional Student Program (RSP) Tuition Break for New England only?

Yes. The program is only for permanent residents of the six New England states—Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont—who attend out-of-state public colleges and universities in New England.

How does a student qualify for the RSP?

As a permanent resident of a New England state, a student is eligible for the RSP when enrolled in an approved degree program offered by a specific public college or university in another New England state. Information on approved majors (associate, bachelor's and graduate) is available under "Find a Program" at www.nebhe.org/tuitionbreak.

At certain colleges, students may also qualify when the out-of-state college is closer to home than the in-state college offering the same program. The colleges allowing "proximity" eligibility are listed on the "Eligibility" page at www.nebhe.org/tuitionbreak.

How does a student apply for the RSP?

A student completes the college's application for admission and declares an approved major offered through the RSP by that college. Some college applications include a box to check for "New England Regional" or "RSP." Otherwise, a student should indicate "Applying for Regional Student Program (RSP) status." NEBHE does not require a separate application.

The college notifies a student of RSP status usually at the time of acceptance to the college. Note: Some programs have special requirements and/or are not available to freshman students.

How are degree programs approved for RSP status?

Undergraduate and graduate majors are approved for RSP status on an annual basis. The residents of a particular state become eligible for an RSP major after a review by that state's public colleges determines that a comparable major or concentration is not offered in-state.

How much of a discount is the RSP?

The average annual tuition savings per full-time RSP student is currently \$7,000. The RSP allows an eligible student to pay a regional rate, which is significantly less than out-of-state tuition. The rate is based on a percentage (up to 175 percent) of a college's in-state rate. Current rates are posted under "Data & Reports" at www.nebhe.org/tuitionbreak.

Can a student already enrolled at a college declare an RSP major at that college?

Usually. An enrolled student needs to contact the registrar and/or the college's RSP campus representative, listed in the RSP catalogs, at www.nebhe.org/tuitionbreak.

What happens if a student changes from an approved RSP major to one not approved?

A student will be charged the full out-of-state tuition rate from that point forward.

Why are certain programs, which aren't offered in a student's home state, not offered under the RSP?

Sometimes a college or university decides not to offer certain majors, such as high-demand programs, under the RSP. Also, a few programs are not offered by any New England public college (Examples: Professional Golf Management, Aerospace Engineering).

What happens if a college decides to discontinue offering a major through the RSP?

If a college withdraws a major from the RSP, but still offers the major, students currently enrolled through the RSP are grandfathered.

Can the RSP be used to attend a private college or a college outside New England?

No. The RSP is only available at New England public colleges and universities.

Is an RSP-eligible student eligible to apply for financial aid?

Yes. A student should complete the FAFSA (Free Application for Federal Student Aid, available at www.fafsa.ed.gov) and any other financial aid applications required by the college(s) in order to be considered for any type of financial aid (scholarships, grants, loans and/or work-study).

How long has the RSP Tuition Break existed?

The New England Board of Higher Education (NEBHE) established the New England Regional Student Program (RSP) in 1957-58. Over the years, it has been known as the "Apple program," and more recently is called the Tuition Break program. All of New England's public colleges and universities participate in the RSP. The RSP has helped New England families with discounts on more than 230,000 annual tuition bills.

What is the New England Board of Higher Education (NEBHE)?

NEBHE was created by the New England Higher Education Compact, a 1955 agreement among the six New England states. NEBHE promotes regional cooperation and programs that encourage the efficient use and sharing of educational resources and services to benefit the residents of New England.

Regional Student Program Tuition Break Policies

1. Program Authorization

The New England Board of Higher Education (NEBHE) was established by the New England Higher Education Compact, a formal interstate agreement among the six states authorized by the United States Congress in 1954. NEBHE established the Regional Student Program (RSP) in 1957 to fulfill the purposes of the Compact. Through the RSP, the New England states cooperate to share academic programs offered by their public higher education institutions and provide eligible New England residents with a tuition break when they pursue approved programs not offered by their home-state public colleges and universities.

2. Participating Institutions

All of New England's public community colleges, state colleges and universities participate in the RSP, because of their state's membership in the Compact. Each institution and/or system has a designated RSP representative.

3. Criteria for RSP Eligibility

A. Student Eligibility

RSP students must be permanent residents of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island or Vermont and matriculated in RSP programs. They may be enrolled on a full-time or part-time basis, unless the institution has a different tuition policy for part-time study.

B. Program Eligibility

B1. Regional Programs of Study

a) Regional programs must be majors (not concentrations or options), which are distinguished by their content, courses and credits. Residents of a New England state are eligible for a regional program, when the participating institutions in the home state do not offer a comparable program (which may be a major, option or concentration). Regional programs are offered voluntarily by at least one participating institution in another New England state.

b) Regional undergraduate and graduate programs must be approved by the participating institutions and/or systems each year and be listed in the annual RSP catalog published by NEBHE.

B2. Additional Programs of Study

Students may be RSP-eligible for additional programs as follows.

a) Highly specialized graduate programs (in addition to those listed in the RSP catalog) are sometimes available through the RSP by student petition. If a student determines that a specialized program is not available at his/her home-state public institutions, the student may contact the RSP graduate representative to request RSP eligibility at the out-of-state New England state college or university that offers the program. The student needs to provide statements from the home-state public institutions demonstrating the program's unavailability. Approval of RSP status is at the discretion of the institution.

b) Participating institutions may choose to offer **certificate and diploma programs**, which are not necessarily listed in the RSP catalog.

c) The community colleges may choose to make available through the RSP any program of study offered at their institutions.

B3. Proximity-Based Programs of Study

In certain cases, students may apply for RSP status at an out-of-state institution that is nearer to their legal residence (in closer proximity) than a home-state institution offering the same program.

There are restrictions to this eligibility as follows:

a) Institutions accepting students may limit eligibility:

1. To commuting students only;
2. To students who reside within a certain distance from the accepting institution; and/or
3. To students enrolling in certain programs (e.g. programs listed in the RSP catalog, under-enrolled programs, etc.).

b) A home-state institution offering the same program, or a state system, may restrict the eligibility of their state's residents on this basis to commuting students only.

(continued)

Regional Student Program Tuition Break Policies

Institutions from adjoining states may negotiate any conflicts in their implementation of this policy. NEBHE will act as arbiter when institutions cannot reach agreement.

Institutions must notify NEBHE during the annual RSP review whether and how they plan to accept students on this basis, and whether they plan to restrict the participation of their state's residents to commuting students only.

4. Admissions Preference

At the undergraduate level, participating institutions shall accord admissions preference to qualified undergraduate RSP applicants (freshman and transfer) among equally qualified out-of-state applicants.

At the graduate level, the colleges and universities may give admissions preference to qualified RSP applicants.

5. Application Procedure and Notification of Acceptance

There is no separate application for RSP eligibility. Some college applications include a specific reference to the RSP. Otherwise, students should state clearly on their college applications that they are applying to a program of study offered through the RSP. The institutions shall notify students of their eligibility and acceptance through the RSP.

6. Transfer Students

Both internal and external transfer students may be accepted into the RSP. In both cases, the student is eligible for RSP status from the first semester of enrollment in the RSP program of study:

- a) A student may transfer into an RSP program of study from another program at the same institution.
- b) A student may transfer into an RSP program of study from another institution.
- c) If a student transfers from an RSP program of study into one that is not offered through the RSP, this student will be charged the out-of-state tuition rate from that point on.

7. Withdrawal, Limitation or Elimination of RSP-Approved Programs

- a) An institution must give a two-year advance written notice to NEBHE, during the annual RSP review, in order to withdraw an approved program from RSP eligibility. NEBHE will include the withdrawal notice with the program's listing and delete the program from the RSP catalog effective two years from the notice. RSP students enrolled in a program at the time of its withdrawal retain their RSP status until they complete the program.
- b) An institution/system may limit or cap the enrollment of RSP students. An institution/system must give a two-year advance written notice to NEBHE, during the annual RSP review, indicating the intent to limit or cap future RSP enrollment at the present level.
- c) If an institution eliminates a program of study, the institution must notify NEBHE in a timely manner so that program can be deleted from the next RSP catalog.

8. RSP Tuition Rate

The New England Board of Higher Education sets the RSP tuition rate. Consistent with their tuition policy, participating institutions and/or systems may adopt an RSP rate equal to or lower than the RSP rate set by NEBHE. All RSP students enrolled at the same degree level (undergraduate, graduate) at an institution will be charged the same RSP tuition rate. Institutions must give written notice to NEBHE during the annual RSP review of the intent to implement a new rate in the following academic year.

Financial Aid Resources

Financial aid information is available for free from several sources, including the federal government, state financial aid agencies, and foundations listed below. Financial aid includes scholarships, grants, federal work-study and loans.

Students must complete the Free Application for Federal Student Aid (FAFSA), as soon as possible after January 1 in order to be considered for any type of financial aid. Students also need to check with a college's financial aid office for its deadlines and other required application forms.

NEW ENGLAND
BOARD OF
HIGHER EDUCATION

New England Board of Higher Education
45 Temple Place, Boston, MA 02111

New England Board of Higher Education (NEBHE)

NEBHE is a nonprofit, congressionally authorized, interstate agency whose mission is to foster cooperation and the efficient use of resources among New England's approximately 280 colleges and universities. NEBHE was created by the New England Higher Education Compact, a 1955 agreement among the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. NEBHE is funded by the six New England states.

NEBHE gratefully acknowledges the following organizations for their support of its projects and initiatives: Finance Authority of Maine (FAME) • Massachusetts Educational Financing Authority (MEFA) • National Science Foundation • Nellie Mae Education Foundation • New Hampshire Higher Education Assistance Foundation (NHHEAF) • Rhode Island Higher Education Assistance Authority (RIHEAA) • Vermont Student Assistance Corporation (VSAC) • XAP Corporation.

NEBHE established the New England Regional Student Program (RSP) in 1957-58. Since its inception, the RSP has provided New England residents with savings on more than 230,000 annual tuition bills. The RSP has at the same time helped individual New England states avoid spending billions of dollars in capital and operating expenditures for academic programs already offered elsewhere in the region.
