New England Board of Higher Education's Tuition Break, Regional Student Program

2019-20 Annual Report

Executive Summary

During the 2019-20 academic year, NEBHE's Tuition Break, the Regional Student Program (RSP), saw significant growth in enrollment and in the number of program offerings. Undergraduate RSP enrollment at the participating four-year public higher education institutions reached a record high and increased by 22 percent over the previous year. Meanwhile, overall enrollment saw a one-year increase of 14 percent.

A total of 9,257 New England residents benefited from NEBHE's RSP Tuition Break and saved an estimated \$63.5 million on their annual tuition bills in 2019-20. A full-time student saved an average of \$8,100.

This year marks the 62nd year of enrollment in RSP. NEBHE established the RSP in 1957-58 to fulfill the purposes of the congressionally authorized New England Higher Education Compact- expanding educational opportunities for New England residents and sharing higher education resources. To date, the RSP has provided New England residents with discounts on more than 324,000 annual college tuition bills with total savings in the billions of dollars.

Through the RSP, New England residents are eligible to pay a tuition rate that is significantly lower than the regular out-of-state rate when they enroll in approved programs at public colleges and universities in the six-state region. The participating public higher education institutions (HEIs) allow eligibility for a wide array of degree programs, including specialized programs that are not offered by public HEIs in the students' home-state. Some colleges allow eligibility-and savings-for students whose home is closer to an out-of-state college than to an in-state college.

NEBHE's Tuition Break program not only provides much-needed tuition relief to New England students and families but also fosters cost-efficient resource sharing among the six New England states. The RSP helps eliminate the need for states to duplicate academic programs offered by public HEIs in other New England states and thereby avoid billions of dollars in capital and operating expenditures.

The RSP helps participating campuses in a competitive admissions environment to attract and retain out-of-state New England students, who would have likely attended college elsewhere if the RSP tuition discount were not available.

The region's public colleges and universities received an estimated \$120.9 million in tuition revenue-and approximately \$25 million in fee revenue-from the RSP students enrolled at their campuses in 2019-20.

Record Number of Program Offerings

A record number of programs-more than 2,000-are now offered under the RSP. A significant number of RSP degree programs are in specialized or high-demand career areas, such as biomedical engineering, environmental engineering, allied health, pharmacy, energy technology, advanced manufacturing technology and sustainability studies. The program offerings for 2020-21 include 41 new specialized programs approved for eligibility through an annual peer-review conducted by NEBHE, which engages all the RSP participating institutions.

Participation in Flexible Policy Option Increased

In 2018 the RSP implemented a new flexible policy for four-year public HEIs as an additional eligibility option for enrollment effective for the 2019-20 academic year. Under the flexible option, colleges may choose to offer any of their degree and certificate programs to residents of any other New England state. Flexible eligibility is not dependent on the program being unavailable in a student's home state. Prior to 2018, only the community colleges had the option to allow flexible eligibility.

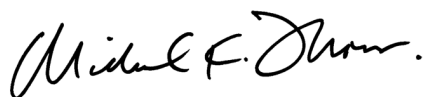

The number of four-year public HEIs that indicated they would allow flexible eligibility for designated programs was 12, effective Fall 2019 and 15, effective Fall 2020. More than 100 flexible programs were added for 2020-21.

RSP Tuition Savings and Revenue

The 2019-20 academic year marks the 62nd year of enrollment in the New England Board of Higher Education's Tuition Break, Regional Student Program (RSP). The RSP has provided New England students and families significant savings on about 323,000 annual tuition bills since 1957 with estimated total tuition savings in the billions of dollars.

Tuition savings and revenue increased significantly in 2019-20. The average savings per full-time student was \$8,100.

RSP Tuition Savings and Revenue	2019-20	2018-19	% Annual Change
Tuition savings to students and families	\$63.5 million	\$54.2 million	17%
Tuition revenue to participating institutions	\$120.9 million	\$98.1 million	23%

RSP Enrollment: Fall 2019 vs Fall 2018

A total of 9,257 students were enrolled at New England public higher education institutions (HEIs) through the RSP in Fall 2019. About 64% were enrolled in four-year undergraduate programs, 28% in community college programs and 7% in graduate programs.

Undergraduate RSP enrollment at the four-year HEIs reached a record high in Fall 2019. Increases were largely attributed to enrollment under the Flexible Programs policy, which took effect in Fall 2019 for the four-year HEIs. Of the 81 participating colleges and universities, 46% reported enrollment increases.

A total of 12 four-year HEIs enrolled students under the Flexible Programs Policy in Fall 2019. Three additional four-year HEIs indicated they will enroll students under the Flexible policy starting in Fall 2020.

Enrollment (headcount)	2019-20	2018-19	% Annual Change

RSP Enrollment by Eligibility Type

The eligibility categories under the RSP are as follows: 1) **specialized programs**, approved for students if programs are not offered by home-state public colleges; 2) **proximity programs**, approved for students who live closer to the out-of-state college than an in-state college; 3) **flexible programs**: approved for students at colleges that choose to offer one or more programs to residents of *any other state*. (*The flexible policy went into effect for four-year institutions effective fall 2019. Previously only community colleges could choose to offer flexible programs.*) Flexible Programs enrollment accounts for 36% of total enrollment at the four-year HEIs.

Highlights of RSP Enrollment by State

- Five of the six states saw one-year increases in their **incoming** enrollment under Tuition Break: Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. (In Fall 2018, only New Hampshire saw an overall increase.)
- All six states saw one-year increases in **outgoing** enrollment of their residents under Tuition Break.
- Connecticut saw an increase in the number of their residents enrolling at community colleges. The other five states saw decreases.
- Maine was the only state with a decrease in the number of the state's residents enrolling in graduate programs.

Snapshot of Overall Enrollment Trends

Enrollment at higher education institutions (HEIs) declined by 1.3 percent overall nationally, according to the National Student Clearinghouse Dec. 2019 report, *Current Term Enrollment Estimates, Fall 2019*. The largest drop was in the private for-profit four-year sector (-2.1%), followed by the public two-year and four-year sectors (-1.4% and -1.2%, respectively) and the private nonprofit four-year sector (-0.6%).

Four of the New England states saw one-year decreases in overall total enrollment (public and independent). Rhode Island saw a modest one-year increase; New Hampshire was the only state with increases over the last three years (likely attributed to Southern New Hampshire University).

NOTES: The RSP tuition savings figures represent the discount on out-of-state tuition received by eligible residents. Revenue figures represent the total tuition and estimated mandatory fees paid by RSP students to participating institutions. Net revenue equals the RSP surcharge above the in-state tuition rate. The revenue figures are calculated based on annual tuition rates, mandatory fees and FTE figures reported for the fall 2019 semester. The full-time equivalent (FTE) enrollments were calculated using a modified version of the U.S. Department of Education's methodology. Specifically, the FTE was determined by adding 40 percent of an institution's reported part-time enrollment to its reported full-time enrollment [(Part-time Enrollment x 0.4) + Full-time Enrollment = FTE]. Total numbers may vary slightly due to rounding.

Fig. 2. RSP Tuition and Fee Revenue and Enrollment by Institution: 2019-20

During the 2019-20 academic year, New England public colleges and universities received an estimated \$120.9 million in tuition revenue and \$25 million in fee revenue from 9,257 students enrolled under the RSP.

NOTES: The following institutions did not report any enrollment under the RSP in Fall 2019: In Connecticut: Capital, Manchester, Naugatuck Valley, Northwestern Connecticut and Norwalk community colleges. In Maine: Eastern Maine and Washington County community colleges; University of Maine at Fort Kent and University of Maine at Presque Isle (because they have institutional policies allowing all out-of-state students to pay reduced tuition, effective starting Fall 2015). In Massachusetts: Cape Cod and Massasoit community colleges.

The revenue figures are calculated based on annual tuition rates, estimated mandatory fees and FTE figures reported for the Fall 2019 semester. The full-time equivalent (FTE) enrollments were calculated using a modified version of the U.S. Department of Education's methodology. Specifically, the FTE was determined by adding 40 percent of an institution's reported part-time enrollment to its reported full-time enrollment [(Part-time Enrollment x 0.4) + Full-time Enrollment = FTE]. Total numbers may vary slightly due to rounding.

In Maine: Eastern Maine and Washington County community colleges; University of Maine at Fort Kent and University of Maine at Presque Isle (because they have institutional policies allowing all out-of-state students to pay reduced tuition, effective starting Fall 2015). In Massachusetts: Cape Cod and Massasoit community colleges.
