A photograph of a forest path with wooden steps leading towards a bright light at the end of the tunnel. The path is surrounded by dense green foliage and trees. The light at the end of the path creates a strong lens flare effect. A large, semi-transparent white circle is overlaid on the right side of the image, containing text.

“Historically, pandemics have forced humans to break with the past and imagine their world anew. This one is no different. It is a portal, a gateway between one world and the next. We can choose to walk through it, dragging the carcasses of our prejudice and hatred, our avarice, our data banks and dead ideas, our dead rivers and smoky skies behind us. Or we can walk through lightly, with little luggage, ready to imagine another world. And ready to fight for it.”

- Arundhati Roy, *The Pandemic Is a Portal*
